Contract Preparation, Tendering and Bids Evaluation

Why Attend

- The overall aim of this course is to provide participants with the knowledge, concepts and skills needed to perform all the tasks required in the pre-award phase of a contract. The course covers different contract types and various contracting methods with a concentration on tendering.
- Participants in this interactive course will learn essential tools and techniques used in analyzing submitted bids including preliminary examination, technical evaluation and commercial evaluation.

Course Methodology

- This course relies on the use of individual and group exercises aimed at helping participants learn all key contract management activities. The course also features the use of a number of case studies, presentations and role plays by participants followed by plenary discussions. In addition, this course incorporates pre and post testing.

Course Objectives

By the end of the course, participants will be able to:

- Outline the basic elements of contracting
- List the major steps involved in contract preparation procedures including developing an effective scope of work, terms and conditions and sourcing strategy
- Describe different types of contracts and discuss several contracting strategies including pricing
- Evaluate in-depth the process of preparing tenders and selecting potential contractors
- Use evaluation criteria to select the most appropriate contractors for the project

Target Audience

- All those involved in any step of contract pre-award phase of the contracting process including personnel involved in determining the best contracting strategy, sourcing decisions and tendering. Our institute has been reviewed and approved by the PMI® Authorized Training Partner Program. This course is worth 30 Professional Development Units (PDUs).
