Drafting Contracts and Writing Scope of Work

Why Attend

- The overall aim of this course is to provide participants with the knowledge and skills needed to write an accurate scope of work for projects and draft simple contracts. The course covers multiple tools that can help in analyzing the requirements of the end user and understanding the scope of the project or the product. Participants in this interactive course will learn about the process of drafting the scope of work by using templates and effective writing techniques. Furthermore, the course will cover the building blocks of a contract as well as the best practices used during related negotiations.

Course Methodology

- This course relies on the use of individual and group exercises aimed at helping participants learn all key contract management activities. The course also features the use of a number of case studies, presentations and role plays by participants, followed by discussions. In addition, this course incorporates pre and post testing.

Course Objectives

By the end of the course, participants will be able to:

- Identify the essential elements of a contract and recognize the importance of the scope of work.
- Outline the objectives of a contractual relationship and leverage them into requirements needed to develop the scope of work.
- Plan and prepare a solid scope of work using outlines and templates.
- Define contract building blocks and draft simple contract provisions.
- Write the narrative of a contract as well as different contract parts using best practices.

Target Audience

- Personnel involved in drafting scope of work and negotiating contract terms in order to ensure contract requirements are properly captured. Our institute has been reviewed and approved by the PMI® Authorized Training Partner Program. This course is worth 30 Professional Development Units (PDUs).
