Negotiating, Drafting & Understanding Contracts

INTRODUCTION

- This Negotiating, Drafting & Understanding Contracts training course is specially and specifically designed to cover the major stages of contracting. We learn about negotiating the deal so that all the major risk points and eventualities are covered and then documenting the deal in an efficient and concise manner so that the contract can be easily understood by all members of the organization.
- Contracts are the essential structure of all commercial relationships and are involved in every component of business life. It is vitally important that all members of an organization understand how contracts operate whether they are involved in the construction of a major new asset or in the supply of goods and services. This training course will increase awareness of practices in other sectors as well as giving delegates the opportunity to assess situations from the other party's perspective.

This training course will highlight:

- Tools and techniques for negotiations
- Understanding key contractual clauses
- Different contract structures
- Effective contract management
- Ways to resolve disputes

OBJECTIVES
