Developing Strategic Partnerships, Joint Ventures and Consortia

INTRODUCTION

- This Developing Strategic Partnerships, Joint Ventures, and Consortia training seminar focuses on how to proactively develop all the key components for either a Strategic Partnership [SP], Joint Venture [JV], or Consortium – completing a formal scenario analysis of each potential opportunity with a detailed plan for execution. When firms / organizations need to develop new functional capabilities to stay competitive, these require time, talent, and capital. Access to these resources can be achieved through a SP, JV, or Consortium with those who already have these requisite functionalities. Learn the comprehensive development and analysis process-flow and apply these to contemporary firms in several leading industries. Then do the same for your own firm / organization – while developing a detailed proactive rubric to screen and approach potential allies, negotiate the key contractual terms, lead the execution / launch, and monitor-assess a SP, JV, or Consortium.

This training seminar will highlight:

- Strategic mapping of external sectors, industries, markets, and segments
- Assessing your firm's functional capabilities alongside strategic needs and offerings
